% of total graduates in Hong Kong (incl. other non-creative industries programmes)		13.7%	13.6%	14.3%	14.0%	13.4%	13.1%	12.9%	13.5%	13.1%

Sources: Education Bureau (EDB) and University Grants Committee (UGC)

Notes:

(1) Figures on student intakes and graduates in a particular field of programme cannot be comparable to each other due to the following reasons: (a) broad-based admission adopted by a handful of institutions/academic departments; (b) study duration varies across different programmes.

(2) Only the post-secondary programmes with accreditation as local qualification are covered.

(3) Sub-degree programmes include both Associate Degree and Higher Diploma Programmes.

(4) The programmes are classified on a mutually exclusive basis as far as possible since some programmes may contain a tiny portion of courses on other creative disciplines.

(5) Publicly-funded refers to Government-funded programmes, programmes funded under UGC and the programmes under Study Subsidy Scheme for Designated Professions/Sectors (SSSDP).

(6) Breakdowns figures by funding mode are not released.

(7) Breakdowns may not add up to the total number of graduates of creative industries-related programmes in the respective funding mode due to rounding.

§ Figures are not released due to relatively insignificant magnitude.
